MAKERS OF THE ORIGINAL SWISS ARMY KNIFE | ESTABLISHED 1884

# A SUSTAINABLE SIGNATURE

---

## MORE THAN 130 YEARS OF TRADITION AND EXPERIENCE

Victorinox creates products which are designed to be true companions for life. Precise and elegantly engineered, our company is proud to represent the distinguished characteristics of our country through the manufacturing of the Swiss Army Knife. They are one of the key symbols of excellent Swiss quality and ingenuity. Still today, the core values upon which our business and manufacturing is based, are as relevant as they were in 1897 when Karl Elsener created the Original Swiss Army Knife: Functionality, innovation, iconic design and uncompromising quality. Victorinox products have accompanied people through life's adventures since 1884. They are the ambassadors of our timeless Swiss values – as timeless as the classics you will discover on the following pages.

Today Victorinox produces more than 120'000 Pocket Tools, Household- and Professional Knives per day. We market our products in 125 countries on all five continents and a considerable part thereof is used as Promotional Gifts. The typical values such as quality, innovation, functionality and iconic design leave a lasting impression and guarantee an unmistakable and lasting image transfer. Our products are the result of the dedicated work of 2100 individuals who are part of the Victorinox family from around the world. It is the culmination of their contributions which make Victorinox products what they are: unique. We are pleased to offer you in this catalog a carefully selected choice of favored promotional products.

We are looking forward to writing the next chapter of our company history together. For your continued support and your dedication to our brand, I would like to express my sincere thanks.

Kind regards,

A handwritten signature in black ink that reads "Carl Elsener".

Carl Elsener  
CEO Victorinox Group

# BRAND VALUES

---

Each Victorinox Swiss Army watch embodies the spirit of the legendary Original Swiss Army Knife, a universal symbol of functionality, innovation, quality and iconic design.

## QUALITY

Victorinox Swiss Army produces its watches in its own workshops based on criteria that emphasize technical performance, so as to optimize usefulness and practicality. They meet the highest standards of the Swiss watchmaking industry. Before leaving the facility, each watch reference is certified after undergoing a battery of at least 100 tests. Among the most important tests are water resistance, temperature, corrosion, UV, traction and torsion, vibration and shock resistance, aging and wear. In addition to this long control process, they are also visually inspected between each manufacturing step. For these reasons, Victorinox Swiss Army watches have a three-year warranty. They are genuine precision instruments, modern and timeless in design, and built to last.

## FUNCTIONALITY

All Victorinox Swiss Army watches are designed for maximum utility. Functionality is a focus for every aspect of the timepiece, from the dial, which should be easy to read, to the most sophisticated professional functions. All design details are based on their practical application. Functions are never mere additions or embellishments.

## INNOVATION

The objective of Victorinox Swiss Army is to enrich its collections regularly with new design elements and innovative features, while seeking creative solutions for the updates of existing components.

## ICONIC DESIGN

Victorinox Swiss Army watches are inspired by the Original Swiss Army Knife, which has become, over many decades, one of the world's most recognizable objects of functional design. Sharing the same source of inspiration, both the watch and the knife symbolize the union between the history of Victorinox and its contemporary interpretations

## 3-YEAR WARRANTY

A minimum of 100 quality control tests allow Victorinox Swiss Army to offer a 3-year warranty !

# HISTORY

## *THE SPIRIT OF INNOVATION & SUSTAINABILITY*

**Responsibly** meeting the needs of the present, and ensuring that future generations will be able to meet theirs, require **innovative** thinking on an unprecedented scale. Robustness, **durability** and quality are the key requisites.

1884

Karls Elsener opens a cutlery workshop in Ibach – Schwyz with the support of his mother Victoria.

1909

Following the death of his mother, Karl Elsener introduces the brand name «Victoria» in her honor. The company's founder legally registers the distinctive emblem with the cross and shield as a trademark. It is now a registered trademark in more than 120 countries.

1945

The "Original Swiss Army Knife" begins its successful progression around the world and is particularly popular in US Army PX stores.

1989

Victorinox's American distribution partner enters the timepiece market in the USA under the "Swiss Army Brands, Inc." label.

2002

The publicity traded US distribution partner Swiss Army Brands Inc. is privatized. The timepiece brand Victorinox Swiss Army is launched internationally.

2009

Geneva City hosts first Victorinox Flagship store in Switzerland. 125 years after its foundation, Victorinox now employs more than 1800 employees worldwide and generates revenues of around CHF 500 million.

2014

The Brand celebrates its 130th anniversary together with the 25th anniversary of Victorinox Swiss Army timepieces.

2016

Victorinox Swiss Army moves to its new watchmaking competence center in Delémont in the Swiss Jura. Inauguration of the watch case production facility in Delémont.

### THE BRAND FOR BRANDS

The wide comprehensive range of Victorinox corporate gifts is complemented by perfectly matched customized upgrade options. The main focus of our promotional products is premium quality, to ensure they leave a lasting impression. The entire procedure, from pre-printing to the imprinting process, is done in-house, ensuring that you can rely 100% on professional advice and execution.

We offer 2 different options for imprinting your logo or claim and no matter which one you choose, your expectations will be fully met.

*The company logos printed herein are shown for demonstration purposes only and remain property of the respective company.*

# 4 INSCRIPTIONS

## TAMPONPRINT ON DIAL

Today, over 90% of the printing jobs we carry out at Victorinox use the tamponprint process (pad printing). Whether it's spot color printing using up to 6 colors or 4-color photo printing (CMYK), your logo will meet your CI guidelines exactly. In both procedures, color is lifted with an elastic stamp from a steel plate (with an etched-in image) and transferred to the dial to be printed.

*Delivery lead time: 5 weeks, MOQ: 25 pieces*

## LASER ENGRAVING

Laser engraving creates a perception of depth, making it perceptible to the touch. On metal, the lettering and logos appear on the surface in an anthracite/grey color. In general the laser engraving features high wear resistance.

*Delivery lead time: 5 weeks, MOQ: 25 pieces*

# INSCRIPTION ARTWORK

---

Please supply artwork (company logo) in one of the following formats :

## 1. ELECTRONIC DATA

Vectorized graphic logos saved as Adobe Illustrator (.ai), Corel-Draw (.cdr) or Freehand (.fh) format files or exported as an encapsulated postscript (.eps) file. Fonts should be exported as curves or supplied with the disc.

## 2. CONVENTIONAL ARTWORK

Reproducible black-and-white or color document (enlarged up to DIN A4, if possible). Films must usually be recorded and reworked by our specialists electronically.

The submitted artwork is placed by our experts inside the defined areas, observing optical and graphic rules, and in line with the request of the customer with regard to logo, letters/text.

## “READY TO PRINT” PROOF

On receipt of the first order, we will send within three business days, together with the order confirmation, colored 1:1 proof on paper. In return, we kindly ask you to sign or comment on this proof as soon as possible. Note that the delivery date is based on the date of your approval of the proof. For technical reasons, because this is produced by laser printer, the colors are not binding.

*We reserve the right to make technical or aesthetic changes to the models shown in this catalogue.*

# I.N.O.X.

---

*The I.N.O.X. collection is engineered to endure a truly adventurous life. I.N.O.X. watches can handle extreme conditions such as a fall of 10 meters, being driven over by a 64-ton tank or a dive down to 200 meters. They were also designed to please the eye. Day or night, in the office or on a mountain, nothing beats the durable, versatile look of the I.N.O.X. collection.*
